

Vision Screening

Vision screenings will be administered to all children in our preschool, at no additional charge. The screenings will be done by RUMC Preschool staff members who have received training through the Prevent Blindness Ohio initiative.

I give permission for my child, _____, to have a vision screening performed by RUMC Preschool staff members.

Parent Signature: _____ Date _____

Speech/Language and Hearing Screening

We are partnering with Jody Cane, Speech-Language Pathologist from Columbus Therapy Associates, to provide speech/language and hearing screenings for all children in our preschool, at no additional charge.

Early detection of speech, language, or hearing problems is important to foster positive self-esteem and verbal confidence in your child. Early intervention can also alleviate frustration for your child, his teachers, and family members.

The speech/language screening includes: sound production, language understanding, language production, vocal quality, stuttering, and auditory based learning disabilities.

The hearing screening will assess if a child is able to hear sounds within a normal limit across the speech frequencies in both ears.

Written results will be provided to the preschool and to parents. Jody Cane will also be happy to discuss the screening results and provide suggestions for home activities.

I give permission for my child, _____, to have a speech/language and hearing screening performed by Jody Cane.
